

Amendment to the Specification

Please replace the paragraph beginning at page 6, line 27, and ending at page 7, line 6 of the specification as originally filed with the following replacement paragraph:

Container 22 may incorporate one or more functional or decorative features to make container 22 more appealing to a user. For example, container 22 as illustrated includes multicolored trim 52 around periphery 54. Trim 52 incorporates the colors used on playpieces 12, 14, 16, 18, and 20 to help visually connect the heart (i.e., container 22) to the various emotions (i.e., the playpieces). Graphic or textual information may also be provided on the exterior of container 22. For purposes of illustration, the logo and text “Language of the Heart” appear on fabric panel 56. The fabric used to form container 22 for purposes of illustration is a silky smooth, purple fabric, but container 22 could be any color(s) or texture(s). For example, Figure 9 shows an alternative embodiment of a heart-shaped container 122 that includes chamber 150 and 22' that has orange-colored, quilted fabric panels 158 58' and 160 60' and a multi-colored trim 152 around periphery 154 52'.
